REVOLUTIONIZING MANAGED SERVICES

## mWise Endpoint Security

mWise Endpoint Security solutions protect your assets, your information, and your reputation from identity theft, cyber criminals and other web threats. These solutions provide a hands-off, easy-to-use defense against the many threats that can damage your business. mWise Endpoint Security solutions let you forget about security and get back to business.

### Trend Micro

Intelinet Systems has partnered with Trend Micro to deliver the best possible solutions to you, it's valued customers. mWise Endpoint Security uses the Worry-Free Security solutions developed by Trend Micro.

### Key Features

- ◆ **Web Threat Protection:** prevents exposure without relying on matching a pattern file for each threat.
- ◆ **Worry-Free Location Awareness:** automatically changes security settings on laptops to set protection for employees as they move inside or outside the office.
- ◆ **Application Behavior Monitoring:** monitors application activities and prevents unauthorized, harmful changes.
- ◆ **Multilayer Spam Blocking:** stops spam before it reaches Exchange server by checking IP addresses against Trend Micro's constantly updated database of known spam sources. Antispam defense on Microsoft Exchange server restores network resources to process business email, not spam.

Securing Your Web World
